

# Henley Business Partnership

Working together for Henley-on-Thames

Henley Business Partnership has been designed for business owners in Henley to connect and build successful, commercial and charitable relationships

---

We work together in a way that is relevant to that particular group. This includes:

- Collaboration on common projects
- Sharing best practice
- Referral and promoting each other's businesses
- Event creation
- Marketing support

We meet regularly, an overview of our sessions are listed below:

- 3FM Breakfast Meetings
- A variety of social and charitable events
- See calendar and interest group pages for details

*"I joined the Henley Business Partnership in 2013 and it is already having a huge impact on my business. I decided to jump in and really be involved rather than standing around on the edges of the community and I know it is paying dividends. My visibility in the town has grown and I have built relationships with some key figures here - the town may be small but there is a lot of influence here! I am able to be part of a committee that has my best interest at heart - the success of my business. This isn't just another gathering. It's almost self-help. And with all good self-help, the more you put in, the more you get out. If you want your business to be successful in Henley I'd highly recommend Henley Business Partnership"*
